

Acoustic Consultant

This is an exciting opportunity to develop your career with a highly regarded acoustic consultancy practice. We have a fresh approach and are looking for individuals who are keen to be part of a strong growing business with the exciting career prospects that expansion brings.

You will have several years acoustic consultancy experience and be keen to develop your skills on software such as SoundPlan and CATT. You will have good administration skills and be proficient at managing your own time. You will be adept at Microsoft Word and Excel packages.

Preferably you will be experienced at sound insulation testing, but this is not essential.

This is an opportunity for rapid progression. You will be encouraged to manage your own projects from start to finish with support from our friendly team and you will almost certainly gain experience of new areas of noise and vibration. You will have an informed understanding of relevant British Standards, legislation, guidance and good practice.

The basic requirements for the Consultant role are:

- AMIOA status or above
- Full UK Driving Licence
- Relevant Degree or equivalent

To apply, please email your CV and two pdf acoustic reports demonstrating your competence with details of your salary expectation to m.woolley@environoise.co.uk, or by post to:
